TODAY

## Quoting by hand costs us sales.

9:02

**96.1%**
of Malaysian businesses are MSMEs (2024)

**39.7%**
of Malaysia's GDP comes from MSMEs (2025)

9:02

**Slow replies** · owners answer between jobs, often hours later.
**Mixed languages** · English, Bahasa Melayu, Chinese, all in one chat.
**Missing details** · requirements trickle in, so quotes are late or wrong.
**Cold quotes** · customers take days to sign and nobody follows up.

WHO WE BUILT IT FOR

**Owners and staff of small businesses, and the customers who just want a quote on WhatsApp.**

UN SUSTAINABLE DEVELOPMENT GOALS

# How we achieve SDG 8 and 9

**8**

**DECENT WORK AND ECONOMIC GROWTH**

**Target 8.3: support micro and small firms**

### Productivity

AI gathers requirements and chases unsigned quotes, so staff approve instead of typing.

### Formalisation

Every deal gets a signed PDF quote, invoices and receipts, not a chat screenshot.

### Growth

Faster replies around the clock and fewer lost quotes mean more closed sales.

**9**

**INDUSTRY, INNOVATION AND INFRASTRUCTURE**

**Target 9.c: access to ICT**

### Access

Runs inside WhatsApp, which owners and customers already use. No new app to learn.

### Inclusion

Understands English, Bahasa Melayu and Chinese, in one chat or mixed.

### Reusable

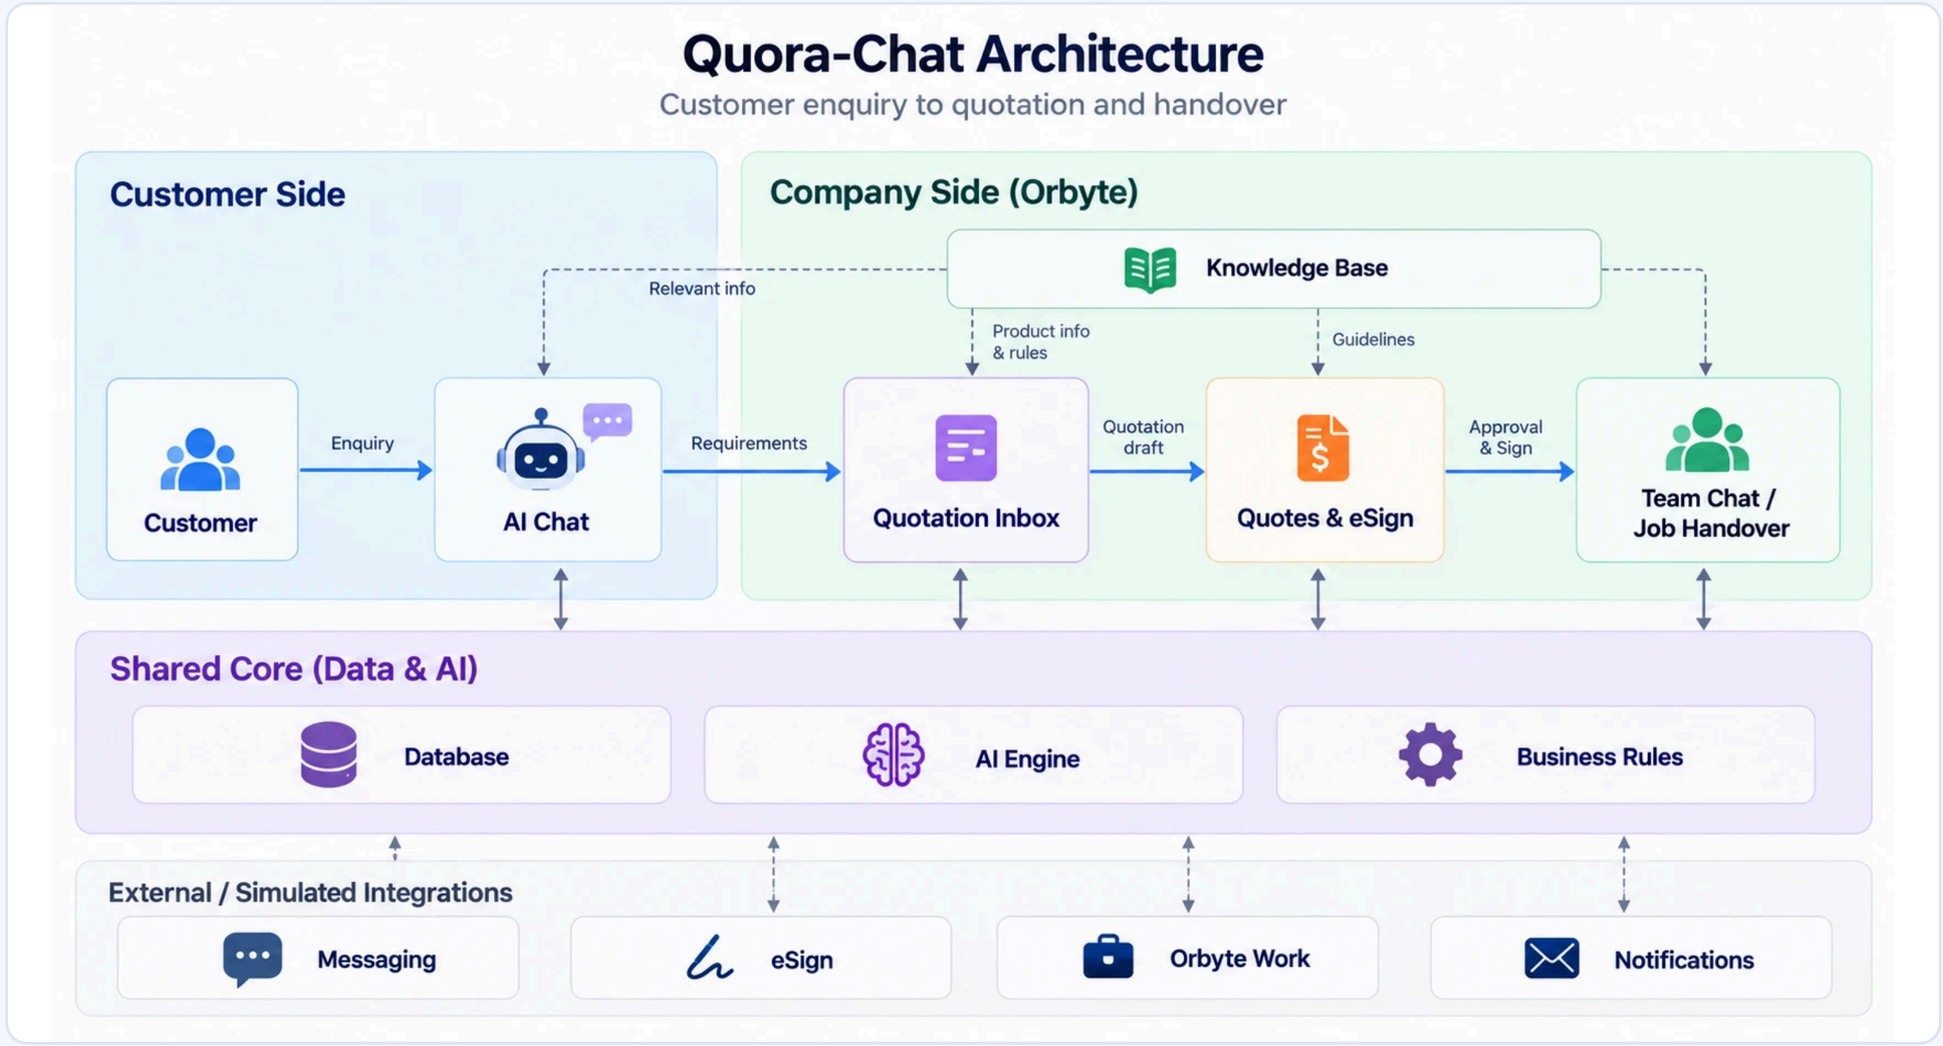

One workflow serves printing, aircon, renovation, software and accounting firms.

**How we will measure it: time to first reply · quote-to-signed rate · staff hours per quote.**

UN SDG targets 8.3 and 9.c · metrics to be measured in a pilot, no results claimed yet
