SDC Hackathon 2026

Replit — Proof of Usage (POU)

Team Name: HTL

Project Name: Quora Chat

Domain: Domain 2 - ALPHA RED

Platform: Replit

Live Prototype: https://quora-chat.replit.app/

1. Purpose of Replit Usage

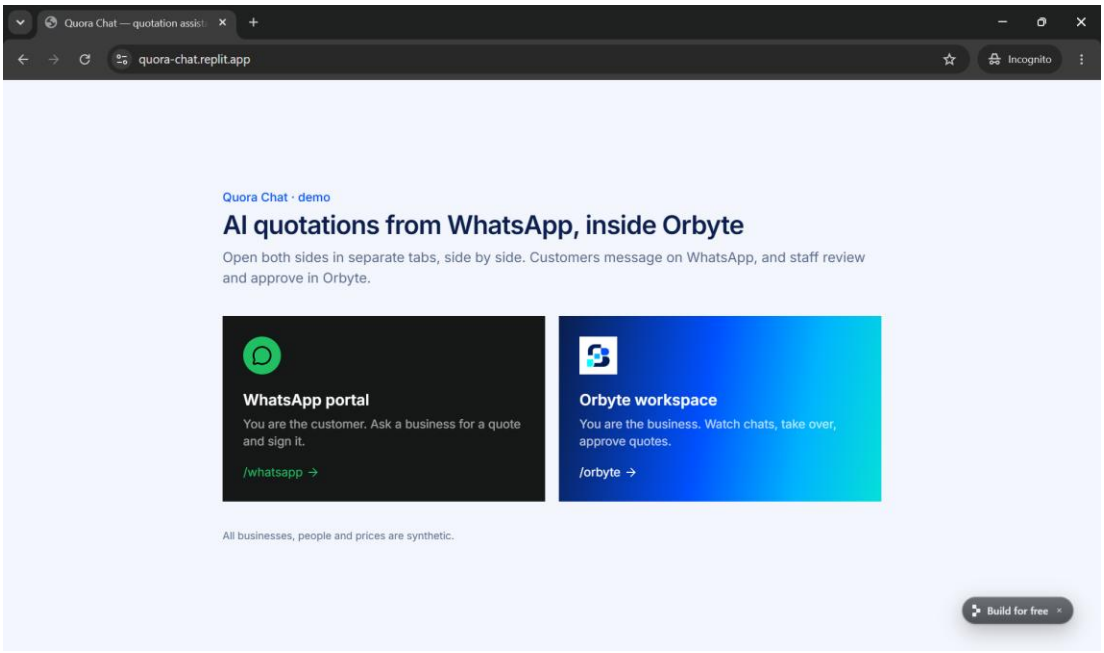

Team HTL used Replit as the cloud development and deployment platform for Quora Chat, an AI-assisted customer enquiry and quotation management system designed for the Orbyte SME ecosystem.

Replit was used for:

- **Application Hosting:** Deploying the functional web application and background workflow services.
- **Database:** Hosting the PostgreSQL database for customer enquiries, requirements, quotations, approvals, and jobs.
- **AI Integrations:** Providing access to OpenAI models for conversational AI, requirement extraction, and summarization.
- **AI-Assisted Development:** Using Replit Agent to support application implementation, debugging, and development tasks.

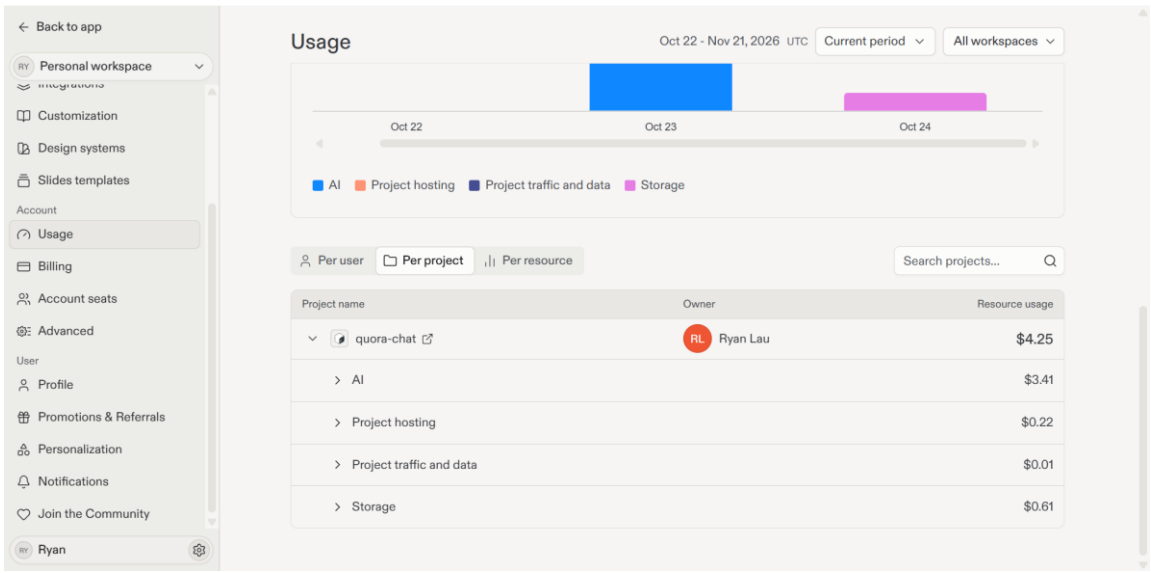

2. Live Deployment Evidence

Deployment URL: https://quora-chat.replit.app/

3. Replit Usage Evidence

The Replit Usage dashboard records activity under AI Agent and Replit AI Integrations for the billing period beginning 22 October 2026.

4. Declaration

We confirm that Replit was used in the development and deployment of Quora Chat for SDC Hackathon 2026. The attached screenshots and deployment URL are provided as evidence of platform usage.

Team: HTL
